<p>Portugal, VET centres</p>	<p>Slovenia, VET centre</p>	<p>Spain, University</p>

Work packages:

WORK PACKAGES

WP 2: Definition of an AI strategy in educational processes

- prevent the exclusion of persons in disadvantaged situations
- taking into account active learning, where the learner has a leading role
- ensuring that AI4Ed activities comply with good practices, as well as legal aspects of ethical issues

WP 3: Identification of data structure

- analyse the internal flows of information
- analyse technologies involved in the already developed tools
- guarantee data protection

WP 4: Capacity Building for teachers and students

- define the programme that will support the capacity building
- identify the areas of knowledge
- create a proper syllabus

WP 5: Toolkit development and Use Case Implementation

- Develop guidelines explaining what data is needed
- Define and implement AI4Ed models in 4 different institutions
- Piloting

Many thanks for listening, questions and
suggestions!
